To VIKTOR. [1]

At the last two meetings by ORESTES [OREST] [ii] there was [5 groups unrecovered]

original materials. [B In the opinion] of ORESTES, MOUNTAINEER [CORETS] [iii] to guess [a] that [C, the material] goes to the Soviet Legation. ORESTES said that MOUNTAINEER was working for the Hungarian Government, but, knowing that it was not likely to be long-lived, he was establishing contact with the Allies. He [C, is in contact] with an American journalist SHANCKS [iv] with whom he worked for about three years in BERLIN, and is in contact through CUNNINGHAM [KUNINGHAM] [v] with the British. But as it is clear to him that the fate of HUNGARY will be decided by the USSR, he is seeking contact with the Russians. ORESTES [3 groups unrecovered] need to recruit MOUNTAINEER and [1 group unrecovered] to do it himself, putting forward various alternative proposals, in particular:

1. Suggest to MOUNTAINEER that he should give various documents to the Russians; [D, this] will compromise and bind him.
2. Recruit [him] [b] openly.

We have forbidden the recruitment of MOUNTAINEER; however we cannot be certain that ORESTES has not already, to a certain extent, initiated MOUNTAINEER and is trying to justify his action after the event. ORESTES has told MOUNTAINEER about his official acquaintance with VALERIAN (vi) and has been asking IRINA (vii) to hint to MOUNTAINEER that it is in fact to VALERIAN that he is passing on the material in order to divert suspicion from ANATOLIJ (viii). As regards MOUNTAINEER we shall in this line [3 groups unrecovered] KLIM (ix). However, KLIM will raise the question of who [3 groups unrecovered] in [C. liaison with] ORESTES. It is feared that, owing to operational inexperience, [B. the assistance] which we offered KLIM [8 groups unrecovered] liaison with ORESTES [5 groups unrecovered]. We consider that ORESTES [C. the English] [5 groups unrecovered].
